

# Haustiere

## Inhaltsverzeichnis

- [1 Mini-HLNA](#)
- [2 Chibi Kreaturen](#)

Mit dem Patch 298.3 und 304.1 sind Haustiere dazugekommen. Sie werden über den [Schild](#)-Slot ausgerüstet. Daher kann man auch immer nur ein aktives Haustier haben.

### 1 Mini-HLNA

Den Anfang macht mit Patch 298.3 Mini-HLNA, den man als Bonus für das kaufen des Genesis Season Pas erhält. Es reagiert auf verschiedene Emotes und ist zwingend erforderlich um die Genesis Chronicles (eine Art [Explorer Notes](#)) zu lesen.

### 2 [Chibi](#) Kreaturen

Mit dem Winter Wonderland 4 (Patch 304.1) und Love Evolved (Patch 305.13) sind nun insgesamt 60 [Chibi](#) Haustiere ins Spiel gekommen. Dies sind kleine Varianten von Kreaturen aus den ARK's Island bis Genesis. Das besondere an ihnen ist das leicht verzehrte Aussehen (übergroße Körperteile oder gestauchte Größe).

Ihre besondere Fähigkeit ist das Erhöhen des maximalen Charakter-Levels. Hierzu muss das [Chibi](#)-Tier ausgerüstet sein während man einen Alpha ([Raptor](#), [Carno](#), [Rex](#) ...) tötet. Dadurch wird es gelevelt und der [Spieler](#) erhält bis zu 5 zusätzliche [Level](#).

#### [Chibi-Allosaurus](#):

cheat
